### Eagle Turf Tee-Line Plus

Eagleturf Tee-line+ is a 32mm super heavy weight nylon fibre which allows golfers to use a normal tee. You can also use a wood or iron to Tee off without a tee.

### Eagle Turf Fairway

Eagleturf Fairway is a beautiful product which is 50% sand filled to play, bounce and roll similar to natural grass. Many players who first experience do not know they are playing on synthetic grass as its so real looking and playing!

### Eagle Turf Rough

Eagleturf Rough is an abrasive 60mm sand dressed turf which is ideal for slowing misguided drives or providing traps all over a course!

### Eagle Turf Fringe

Eagleturf Fringe is a stylish 40mm mono-filament product to surround any Green with style and competitive course design standard.

### Eagle Turf Green – with Shot-stop+

Eagleturf Green with ShotStop+ is the perfect green without water. Eagleturf Green is nylon with a mix of sand infills perfectly designed to emulate natural grass ball roll. The 23mm shock pad under the green kills the bounce to natural grass levels giving a true golf links experience without water.
